PROFESSIONAL PROFILE

- Learning and development professional with experience in traditional and innovative educational settings.
- More than 17 years of experience developing and presenting customized lessons, trainings, and learning materials, featuring blended and personalized learning methods, including instructor-led training, eLearning, videos, simulations, and self-paced trainings.
- Designed and executed blended learning programming on an elementary campus, and 6+ educational projects while leading teams to implement streamlined data tracking systems which led to an increase in students' standardized test scores.

PROFESSIONAL EXPERIENCE

Central Office Instructional Support, Dallas ISD

Jan 2021 - Present

Personalized Learning Coordinator

Serves as project manager and instructional support leader for campuses that are part of the personalized learning (PL) cohort and are transitioning from a traditional instructional model to a PL model. Responsible for facilitating all facets of the planning process and operating as main support person for the campus PL leadership teams throughout implementation.

- Plan, develop, and facilitate engaging professional developments for all levels of the organization. Including multi-day workshops (virtual and in-person), series professional developments, and design thinking. Including the creation of a coaching tool and resource for leaders and virtual professional development opportunities.
- Build and maintain coaching tools and resources that establish a common language around blended and personalized learning in the sixteenth largest school district in the United States.
- Collaborate interdepartmentally to provide a better learning experience for all stakeholders in Dallas ISD.

Campus Based Instructional Support, Dallas ISD

Aug 2016 - Dec 2020

Campus Instructional Coach

Served as a content specialist to assist in the development and implementation of campus instructional plans that aligned to district goals and curriculum. Launched and lead the development of an awarded grant totaling in \$350,000 for campus wide implementations of blended and personalized instruction such that funds were thoughtfully and effectively allocated to maximize return on district and philanthropic investment.

- Managed and developed a team of 8+ teacher leaders in personalized and blended learning strategies to improve outcomes for students through data analysis, observation, modeling, and coaching strategies
- Facilitated 25+ weekly lesson presentations to more than 40 teachers in face-to-face and virtual environments, and constructed materials using the organization's Learning Management System (LMS)

Classroom Instructional Experience, Dallas ISD and Mesquite ISD

Jan 2007 - July 2016

Elementary Educator

Served as an elementary school classroom teacher at all elementary grade levels earning high marks for the quality and creativity of classroom lesson planning, instructional delivery, and developing healthy relationships with all stakeholders.

- Designed and taught engaging lessons to students in first, second and third grades.
- Provided relevant data, timely feedback, and resolutions for families each week with 100% satisfaction rate
